

Initialize  
variables PORTA,  
TRISA, ANSELA to 0x00 and LATA 0x80

Set LATA to 0x80  
for RA7 to 1  
always

Update PORTA by  
0x01

Set counter U32Counter  
to calculated number  
that will cause  
a 250ms delay

Decrement  
counter
